Searching with Keywords

- Often, more data is found in an original record than the number of fields provided by a search template would indicate. If you do have additional information, you can enter this data in the **keyword** field in order to refine your search results. Using the keyword field like this is especially helpful if your ancestor has a common name and you are getting more results than you can easily review.

The screenshot shows a web browser window with a 'Save As' dialog box open. The dialog box has the following fields: 'Save As:' with the text '1930 Census Clyde Branch.jpg', 'Tags:' (empty), 'Where:' with a dropdown menu showing 'Desktop', and 'Format:' with a dropdown menu showing 'JPEG image'. There are 'Cancel' and 'Save' buttons at the bottom of the dialog. A blue arrow points from the 'Where:' dropdown to the text 'Choose Folder in Which to Save Census Image' below the dialog. In the background, a 'Saved' notification with a checkmark and a dropdown arrow is visible. Below the dialog, a table of census data is partially visible, with columns for 'Birthplace' and 'Father Birthplace'. A blue arrow points from the text 'Save to your computer...' in the list below to the 'Save' button in the dialog.
