

THE GENERAL MEETING, JUNE 16, 2023 PRESENTATION

Carved In Stone

Pamela Bell Dallas

Pamela is a graduate of Indiana University and is a member of the National Genealogical Society and the Association of Professional Genealogists. She has presented genealogy lectures at national and regional conferences and given full day seminars. She often gives presentations at local libraries and at local genealogy society meetings. Pamela's genealogical focus is Midwest research, methodology and unique record sources.

The June presentation will be **“Carved in Stone: Cemetery Research”**. You will gain more from your cemetery research. Learn to prepare for your visit to the cemetery, accomplish more during your visit and glean valuable information from related research. We will look at various ways to read tombstones and garner much more information.

See her Sacramento Public Library presentation February 2022 on YouTube:
